

Retail Lending – Loan Application Decision Rules

Document Control

Document ID: LND-RULE-011 | Version: 5.2 | Owner: Retail Credit Risk | Status: Approved

Decision Flow

Application Intake → Document Verification → Credit Assessment → Affordability Assessment → Policy Checks → Risk Classification → Decision.

Rule 1

Applications missing mandatory information or documents must not proceed to final decision.

Rule 2

Applications outside configured policy thresholds must be routed to the appropriate credit-review queue.

Rule 3

Affordability assessment must be completed before a final credit decision.

Rule 4

Policy overrides, inconsistent information and ambiguous documents require authorized manual review.

Outcomes

Approved, declined, additional information required or manual review.

Audit

Decision records retain policy version, input references, outcome, timestamp and reviewer details when manual review occurs.
